### Equipment for Learning

Being properly equipped plays a vital role in supporting students' learning, behaviour, and confidence in the classroom. When students arrive with the necessary equipment, they can engage fully in their lessons from the very start, without disruption or lost learning time.

Having the correct equipment helps students to; begin learning immediately and remain focused throughout lessons, take responsibility for their learning and develop independence, build important organisational skills that prepare them for exams, further education, and employment and it shows respect for their teachers, peers, and the learning environment.

We recognise that no student is perfect and that occasional difficulties can arise. Our approach is about supporting students to build positive habits and routines that will help them succeed both academically and personally. Next week we will be supporting students in tutor time by providing them with any equipment they have not brought or currently have. We kindly ask for your continued support in ensuring your child comes to school each day with the required equipment.

### SEND Support Service

## Kettering Family Hub

**SEND Support Service**  
**Solihull Approach**  
10-week course starting  
Thursday 29<sup>th</sup> January
